How can you safely help?

Phone Bank & other Volunteer Efforts

There are several state and national non-partisan organizations that provide opportunities for assisting with phone banking and other volunteer efforts directed at increasing voter turnout for the 2020 election.

What to expect if you volunteer?

- Most organizations provide clear and concise training that will take about an hour of your time.
- For some phone banking you need not use your cell phone or land line.
- Most allow you to work as much time as you can and when you want to do so. Some do have group times for making calls if that is your preference.
